

ABNORMAL BODY TEMPERATURE, VOICE PROMPT

Normal body temperature
Detection: 36.9 °C

Normal body temperature
Detection: 38.0 °C
Do not enter

Successful punch

ARE
OREVER

PASS MANAGEMENT MODULE OF TEMPERATURE MEASUREMENT & FACE RECOGNITION MANUAL

High performance CPU

Face recognition

Infrared temperature measurement

Face shield recognition

Best body temperature detection distance 0.5m

Temperature measurement range: 10°C~42°C

Automatic alarm for abnormal body temperature

The farthest temperature detection distance: 1m

Temperature measurement speed: <1m

Temperature measurement accuracy: ±40.5°C

RECOGNITION

3W face library

Living accuracy rate >98.3%

Recognition speed <1 second

Recognition rate >80%

Support Face shield recognition

Face shield wearing reminder
